North Korean publications engage in the fight against the invader and propagandize the principles of Marx, Lenin and Stalin, and are a medium for spreading culture to the soldiers and the working classes. They also bring news of the military achievements of our soldiers at the front and the achievements of our workers in the rear. The Labor Sinbo is a good example of this.

9. **THREE YEARS OF HEROIC FIGHT BY THE PEOPLE'S ARMY**

Three years have passed since the American imperialistic aggressors and syngman Rhse's traitors started their criminal invasion against our peace-loving people. Our heroic People's Army in the beginning of the war crushed the puppet troops and American aggressors' forces and liberated more than 90% of South Korea. The American aggressors, on the brink of disaster, tried to recover the situation by launching their general offensive in September 1950. This produced a serious situation on the fighting front. However, thanks to the help of the great Chinese Volunteer Forces our army and people expelled the enemy south of the 38th parallel. Our People's Army and the Chinese Volunteer Forces are fighting bravely today on the frontier, crushing every effort of the enemy to advance northward. In this war, we must speak loudly about the firm unity between the soldiers in the front and the people in the rear. In the beginning of the war, 40 per cent of the workers voluntarily joined the People's Army and the guerilla forces, in accordance with the appeal of the NKLP. The Korean and Chinese armies today are glorious with the honor of hero. 431 officers and men have been awarded the title of hero, and 488,239 soldiers have been awarded various medals by the Republic. During the last three years, 951,460 enemy soldiers have been killed, injured, or captured. Among them, are 377,503 Americans. Moreover, 256 American ships have been sunk or destroyed, 6,766 enemy planes have been shot down, and 2,842 tanks, 5,720 cannons and 11,085 vehicles have been destroyed or captured. Now the American invaders have no other course than to accept the peace proposal of Korea and China. The prediction of the great Stalin, "If the U.S. and Britain refuse the peace proposal, the Korean war will be concluded only with the destruction of those who have interfered," has been proved. The entire people of Korea, on the occasion of the 3rd Anniversary of the liberation war, are united solidly under the leadership of Marshal KIM Il-sung.
